**2nd state level workshop
On**

“Simulation Based Learning”

Objective:-

1. To help students decision making and problem solving skills and to develop human interaction abilities in a controlled and safe setting
2. By means of active involvement in a simulation exercise, a game, or a role-playing situation, the student achieves cognitive, affective and psychomotor outcomes.
3. Students have a chance to apply principles and theories they have learned and to see how and when these principles work.
